BREAKING WORLD NEWS,
A viable way to IN-UNITE and help our stressed planet MEarth.
Short paper 24 pages about all numbers and their correlation with light speed.
The Divine ONE light system
Everything12 #d11s

SHORT INTRODUCTION

Summary

This light paper is trying to motivate its readers to understand and act accordingly.

There is a new number in town its 186,624 (180x1.0368)

This correct speed of light number is directly connected to the ancient Egyptian 'Royal Cubit.'

It is a little bit spooky, but it seems everything can be derived from LIGHT, the speed of Light.

Also, fundamentally it seems like modern measuring deep down are derived from an origin "cradle of life", though still first set up by the Light. That is a Hell of a circle.

Imaging the wider effect, it can have on us in balance with our ONE planet MEarth. It is Magnitude.

So, if from the few last centuries ago, from the beginning of our modern particularly good measuring systems were also aligning to speed of Light (syncs) can be improved from very approx. good to very precise.

Now, bring the 'Divine ONE light system,' to an excellent standard. Exceed the speed it's a question that matter – This is the message.

1 BACKGROUND

The ONE Light

Is everything inter-connected? 4sure it's thy mother source for everything, yes even for us 8 billion living souls. There is no doubt, were all linked to the Light – In the Light we trust 

When we state Everything we mean Everything Everywhere All at Once - The in-numbers.

In this very light paper  I will briefly state a few number REvelations, thoroughly guided by a Scottish-Mau cat (incarnation of Bastet) well-connected to the Deos.

We have extracted bits of Divine ancient knowledge. So, our efforts are to correct a faulty International Bureau of Weights and Measures system, and from now 4ever with correct light numbers e.g. slow climate change by one year, wouldn't it be worth it?

One of two key derivers is the Divine precise number $186\,624\,ni/h$

(The ratio of the Sun², that is the Speed of Light)

For yrs I couldn't find the Light but Paisley did, then the Light found me. We as in not me is Light. Light is everywhere in everything. Question is, for us humans do the Light stand alone or does it have a partner sound? Maybe this 26-page thesis will bring Light,, ehm over it or can guide us into a more accurate place in spacetime. We are wat we measure §

After exactly 2 yrs and 3 months with GRAMS and FB Sacred Geometry Community I came across several fellas who searched for true SPRITUALITY (mental soul expansion?), openness without condemning intolerant religion involved - I do believe this is the way forward towards GLOBAL IN-UNIFICATION especially under ONE CLIMATE PARTY.

The time left is short. We are actually out of time, literally out of time. Btw there is a REspot slot, a number when REset will REshape the next eternity, and it's on our doorstep!

The proof is there and here and there again, not in the pudding 

As I am writing old empirical ways of measuring has since long been replaced by modelling in super computers, AI. Mapping systems have covered every corner of the planet MEarth. Typical geospatial data apart from geometric data is hard to get accurate between time eras due to platonic movements, is it 4 mm per year for some plates, we are talking platonic scale . This is where sacred geometry plays a key role in bridging the original past with the present. The modern way is to jump from conclusion to conclusion with a few missed steps,, and, honestly as humans we have polluted, disgraced and messed up the whole planet, we are out of time. Out of time, so out of time...
...we, all of us, have created a f-g disaster (of our own making), in 1go we have killed 80% the natural environment, The s-t has hit the fan.

There4 in this little piece of work, I hope we all* can make a statement and get all nations aboard to amend nations systems of measuring units, onto a global standard.

From its draft publication online, during 30 days until 30th April, I will take your advice to make an improved paper, a better format with more examples linked and synced to c (speed of light SOL).

Every wk/end I will update 'The Light' draft. After the 30 days, if there is a purpose of sharing this data I will print a specific booklet. It is a long game of risk avoidance. Many thanks

Underlaying is the 'Divine ONE light system' that is clear w/o any of the abbreviations caused for measuring traditional methods. This paper aims to correct and amend 12 items to start with.

4 The Law of numbers, an ALL-APPLYING CODE #CODEPAISLEO

Its clear humanoids cannot agree on religion, territory, currency, powers or any external values. This is where Light workers come in, to work on common Internal values fairness, equity and consciousness. The science must also reflect the in-values and be absolute correct. This area is where in-numbers corresponding with the ancient original ONE supreme number system.

Unfortunately, time has become the essence to reach IN-UNIFICATION we must accelerate conclusion x conclusion = conclusion^4

Old ways to verify information is obsolete. Jump our way forwards is the only way, with a few hits and misses. The Divine Ratio is correct on its own accord, you cannot prove it wrong, U just cannot.

All I can say I know these numbers are correct, the future could brighten up a little bit.

Numbers, numbers by recognition are autodidact when looking deeply at numbers on a daily bases. Certain numbers repeat over and over, leading to harmonic numbers of scales forming patters.

Numbers seems 2b linked to everything – everything is connected in random order or orderly randomness. Animals see numbers for what they are. Only humans try to manipulate numbers to their advantage not accepting the natural world not accepting themselves, without in-values. For some reason humans are broken and egoistical and we do not know why 😞

We are not looking to external system change we need with inner work break the chain from within away from ‘Anno Mundi,’ that is the powering chain. Need to stick to inner commands. If we get all numbers to show wat they are, by understanding the in-numbers we can approach and unblind the incorrect external format in true #Togethernessship.

In this short paper I am aware this is conclusion based and poorly written. I am sry but the numbers are correct. Now it is a 15 point-chapter draft open for analysis improvement for commentary, corrections and input until the 30th of April. This will hopefully amend this Light-thesis and the future could brighten up a little little bit.

*All + Sacred Geometry Decoders (SGD) fellows work on common Internal values those see connectivity and openness as a spiritual asset way away from materialistic ownership (the old).

5 Linkage to Climate Change

You know our MEarth has a 1.5 degrees fever and we are not letting her rest.
(She needs two hundred years of non-human activity to start healing)

All trillion tons on melted ice turned into vapor skies will NEVER freeze back.

Urban growth – Over 10.000 growing second cities and not one single degrowth city.

As a body the planet is a mirror of us, imaging a fever of 38.5 degrees and no new ice nor rest in sight.

The whole planet, oceans, atmosphere up to stratosphere polluted and imbalanced.

8 000 000 000 humanoids and ninja cooks

I have not even mentioned permafrost or methane leaks, so...

...within short something horrific is going to happen.

By improving measuring, “Get the balance right” with the awakening light, slow climate change chaos by one year havoc then.

If you do not agree the above you don't have to do anything, that's your privilege

6:5 ONE CUBIT – The first number

$9999 = 36 \times 2 = \sqrt{5184} = 1$ Djeba of 0.72 (142857) $\times 4 = 1$ Palm of 2.88 (857142)
 $2.88 \times 7 = 20.16$ Perfection but not the speed of light (cannot be used measuring the “Pyramids”)

The ROYAL CUBIT, THE LONG CUBIT ✗, THE SACRED CUBIT (Ancient measurement of Land of Kemet). How did they know the unit of Light ! to the Rock of Eternity ?

Anyway 1 RC = 0.535836763 cm exactly or 1/24000000 of the MEarth diameter ! ✓

186624 RC \times 1.607.51029 Niles/Second = 300.000.000 m/s ! ✓

I wonder 🤔 1 / 0.535836763 ?

If the Sun RAdios as in RAys are linked 2 the truly Divine Royal Cubit 😊

Is ONE Million RC 1h? The Motherload number 55987200

There you have it, 31st March 2023 while our climate catastrophe is unfolding I been holding on to this knowledge for 11 yrs, sry months, been interesting 2C what destiny decide of the Fading. Now, my work is Dunne here. It's up 2U, hence audience to share and spread this Correct.

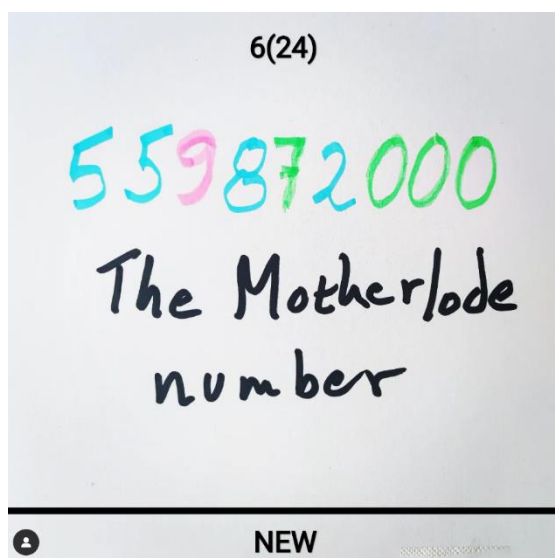

Divine ONE Light system

When we state Everything, we mean Everything Everywhere All at Once - The in-numbers. Ace number 5 is coming out soon 🙌😊

I'm askin you to send me examples of measurements, tables and proof using the Divine ONE Light system
I'm askin you to contact and ask press and media to review the Correct Divine ONE Light system from their point of view

I'm askin you to contact and ask scientists to use below the Correct Divine ONE Light system's conversion table in comparison with the approximate International Bureau of Weights and Measures system

I'm certain this BIPM organisation already know all this, but they say it will take years to change “blah, blah, blah...” - REmember we have no time left..

7 The Divine ONE LiGHT System - Conversion Table

ROYALE CUBITS – INCH - YARD – FOOT - NILE – CM – SPEED OF LIGHT

$$X \times 20.736 / 12 / 3 / 1728 / \times 1607.51029 \times 1.86624 = X$$

$$X / 1.86624 / 1607.51029 \times 1728 \times 3 \times 12 / 20.736 = X$$

I am sharing with you 5 unfinished extracts of the leading measurements HARMONICLY precise to the very decimal. Please try for yourself and come up with new ideas

8 International Bureau of Weights and Measures BIPM

BIPM are the organ to fix this problem.

We need massive lobbying, on a global scale approach your local councillor, members of parliament, national departments, and government leaders. Put pressure on the establishment of art & science.

We need the BIPM to recognise measurements to be aligned with the Speed of Light 186 624 miles/s
We need the Divine ONE Light system to be a recommended measuring system yesterday, there is no more time lose!

We are absolutely certain of the Divine ONE Light system #d1ls conversation table. Numbers double checked and tested ✓ ✓ thousands of times. Exact, precise, and correct 🐱

9 CONCLUSIONS

FOCUS – Disciplined April >>> Result in May

The Divine ONE light system, the unifying in-numerology. 12-based universal maths totally coordinated w/ the Speed of Light to the Rock of Eternity. Get onboard, the train is coming _ _ _

The sooner we can convert any of these actions into action the better. I've been advised to copyright – wat's the point - Align with the Light is the way to coherence, which is the message

I want to thank the whole Sacred Geometry Decoders (SGD) fellows for support and thrive to quest ourselves to just B

Always combine your auric field in slowing climate change 🙏

🔊 **Time is speeding up!** 🔊
time is speeding up so
quickly right now
are you noticing those days
are just whipping by even
faster than before
it is because your
#MERKARBA (your
LIGHTBODY) is spinning so
quickly
everything is actually a
spiral
energy is not a sine wave
it's a spiral
and we are spinning so
much faster than before
literally making us move
acceleRAte through time
we're actually movin into
ZERO-POINT which is no
time
so you will for quantum and
not linear
So it's just like a
hummingbird
we experience a
hummingbird as movin
like in fast motion
but to them their reality is
probably just in normal
speed
it's cos their merkarba
is so fast
one minute of our time is
probably a whole day for a
hummingbird
so the faster that you spin
the more energy you hold
the more that you will
acceleRAte through time
and eventually collapse
everything into zero point
and b in that void
still point as well
it's just evidence of
Ascension...
TIME is speeding up!
